*Title:* Monitoring the Affordability of Personal Automobile Insurance.

*Abstract:* Subtitle A of Title V of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 established the Federal Insurance Office (FIO) in the Department of the Treasury and, among other things, authorizes FIO to monitor the extent to which traditionally underserved communities and consumers, minorities, and low- and moderate-income persons (collectively, Affected Persons) have access to affordable insurance products regarding all lines of insurance other than health insurance. Under this authority, FIO is monitoring the availability and affordability of personal automobile liability insurance for Affected Persons, as detailed in notices previously published in the Federal Register. *See* 79 FR 19969 (April 10, 2014) and 80 FR 38277 (July 2, 2015). FIO will be continuing to review publicly available data. In addition, FIO will be reviewing data from statistical agents. Pursuant to this Notice, FIO also intends to request that insurers that have a statutory surplus greater than \$500 million at the end of the

preceding calendar year, and annually write more than \$500 million of premium for personal automobile insurance (collectively, Large Insurers), voluntarily provide premium data, to statistical agents designated by FIO, for further analysis by FIO.

*Type of Review:* New data collection.

*Affected Public:* Large Insurers; statistical agents.

*Estimated Number of Respondents:* 40.

*Estimated Average Time per Respondent:* Not to exceed 50 hours.

*Estimated Total Annual Burden Hours:* Not to exceed 2,000 hours.

*Request for Comments:* An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number. Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collection; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.
